JOIN THE TEAM

Roke believes in improving the world through innovation. We do it by bringing the physical and digital together in ways that revolutionise industries.

Improve the world

Cars, trains and industrial machines are all being connected to the global network, yielding vast amounts of data that underpin entirely new services and business models. We believe the convergence of the physical and digital represents the single biggest opportunity of our time and we're dedicated to making it happen whilst protecting our customers, their assets and society at large.

Time, Trust and Freedom

Immerse yourself in cutting-edge technologies, work alongside curious and unashamedly technical experts to solve real-world challenges.

Moving fast, building trust you'll experience the freedom to develop secure and safe products that unlock the value of newly connected assets.

Play hard

You'll love the work and may look forward to workouts at the gym, or the experience of working clientside. With a host of clubs, social activities and volunteering opportunities on offer, there's plenty to inspire and help you relax too.

Collaborate and grow

We've fostered an environment where some of the finest minds have the freedom and support to succeed. You'll learn from the best, have the opportunity to explore where your long-term interests lie and receive help to achieve your goals.

[Join the team](#)[What we do](#)[Early careers programme](#)[Our business areas](#)[Graduates](#)[Life as a graduate](#)[Time, trust & freedom](#)[Placements & internships](#)[Meet our graduates](#)[Apprenticeships](#)[Degree apprenticeships](#)[What will you do as an apprentice](#)[Meet our apprentices](#)[Roke](#)[Life at Roke](#)[Our benefits](#)[Corporate social responsibility](#)[Stay connected](#)

WHAT WE DO

Our purpose is to improve the world through innovation.

We do it by bringing the physical and digital together in ways that unlock the economic and societal potential of newly-connected assets.

We conceive, design and secure the world's most technically advanced data and communications systems for governments and industry. From innovations in computer vision powering autonomous drone landing at sea, to an AI inspection system that drastically reduces aircraft turnaround times. Right through to the data

engineering behind 'Hawk-Eye' one of the original solutions for tracking the trajectory of balls in sport. It all began at Roke.

Our 60 year heritage and deep knowledge in sensors, communications, cyber and artificial intelligence means our people are uniquely placed to combine and apply these technologies in ways that keep people safe whilst unlocking value.

For our clients, we're a trusted partner that welcomes any problem confident that our consulting, research, innovation and product development will help them revolutionise and improve their world.

[Join the team](#)[What we do](#)[Early careers programme](#)[Our business areas](#)[Graduates](#)[Life as a graduate](#)[Time, trust & freedom](#)[Placements & internships](#)[Meet our graduates](#)[Apprenticeships](#)[Degree apprenticeships](#)[What will you do as an apprentice](#)[Meet our apprentices](#)[Roke](#)[Life at Roke](#)[Our benefits](#)[Corporate social responsibility](#)[Stay connected](#)

EARLY CAREERS PROGRAMME

As Early Career professionals, you'll directly add value to our our products and services today and tomorrow. We'll invest in your development, encourage self-directed learning and help you use the power of your network to achieve and reward your aspirations.

[Join the team](#)[What we do](#)[Early careers programme](#)[Our business areas](#)[Graduates](#)[Life as a graduate](#)[Time, trust & freedom](#)[Placements & internships](#)[Meet our graduates](#)[Apprenticeships](#)[Degree apprenticeships](#)[What will you do as an apprentice](#)[Meet our apprentices](#)[Roke](#)[Life at Roke](#)[Our benefits](#)[Corporate social responsibility](#)[Stay connected](#)

OUR BUSINESS AREAS

National Security

Digital connectivity provides opportunity, innovation and progress. But it also exposes risks from organised crime and adversaries that threaten our personal and national security and prosperity. Roke's journey began in National Security and we're a trusted advisor to government.

Defence

Our defence business aims to give our soldiers a technological advantage on the battlefield. Whether that be through unmanned systems, or new sensor technology to aid ground forces, we're constantly developing new ways for our clients to utilise technology to protect what matters most.

Commercial

Roke is now putting our expertise in sensors to invent and engineer digitally resilient systems for Fortune 500 companies. We are securing connected infrastructure across rail, automotive and energy and helping manufacturers improve productivity through better insight.

Roke Consulting

Working directly with customers, you will influence important change programmes, providing technical consultancy to help increase understanding and deliver change. From shaping and designing overall solutions, identifying cost-effective options and measuring outcomes, you will be an important contributor to the team.

GRADUATES

Unlock your potential

[Join the team](#)[What we do](#)[Early careers programme](#)[Our business areas](#)[Graduates](#)[Life as a graduate](#)[Time, trust & freedom](#)[Placements & internships](#)[Meet our graduates](#)[Apprenticeships](#)[Degree apprenticeships](#)[What will you do as an apprentice](#)[Meet our apprentices](#)[Roke](#)[Life at Roke](#)[Our benefits](#)[Corporate social responsibility](#)[Stay connected](#)

LIFE AS A GRADUATE

At Roke we're serious about what we do, which means we're serious about developing and supporting our people too. Join us to be part of something special, creating new insights and delivering technological advances for our clients every day.

Are you ready to improve the world by innovating one step at time?

Graduate Consultant in Roke Consulting

Working directly with our customers across national security, defence and commercial you'll influence important change programmes by supporting decision makers.

Artificial Intelligence & Machine Learning

This specialism focuses on the classic components of AI, including perception/machine vision, robotics, natural language processing, knowledge representation and machine learning. It typically includes algorithm developers work with specialist hardware, maths, probability, statistics, algebra, calculus and logic. An interest and understanding of physics, engineering and robotics is also desirable.

Data Science

Our data scientists specialise in data analysis and architecture, database skills, visualisation, big data toolsets, maths and statistics, batch processing, stream processing and appropriate domain knowledge.

[Join the team](#)[What we do](#)[Early careers programme](#)[Our business areas](#)[Graduates](#)[Life as a graduate](#)[Time, trust & freedom](#)[Placements & internships](#)[Meet our graduates](#)[Apprenticeships](#)[Degree apprenticeships](#)[What will you do as an apprentice](#)[Meet our apprentices](#)[Roke](#)[Life at Roke](#)[Our benefits](#)[Corporate social responsibility](#)[Stay connected](#)

LIFE AS A GRADUATE

Information Assurance & Human Science

The Information Assurance & Human Science teams work on the strategic issues of cyber security, centring on a consultative approach to cyber, including risk management, information assurance, frameworks and standards, business continuity, system architectures, human science and behavioural science, as well as general security consulting.

Cyber & Networks

If you join the Cyber & Networks team you'll be working on operational cyber, reverse engineering, network hardware and protocols, network security, lawful interception, embedded systems security and security analytics.

Agile Software

Agile software focuses on all aspects of deploying software at pace and scale. Skills include: Database engineering, DevOps, open source operating systems and frameworks, system architecture, data migration, user experience, user interface design, robotic process automation, agile methods, service management and cloud architecture.

Sensors & Communications

Our Sensors & Communications team specialise in the areas of sensor design, mobile technologies, radio/RF engineering, electronics engineering, FPGA and ASIC design, hardware engineering, power management, embedded programming and low SWaP-C design.

[Join the team](#)[What we do](#)[Early careers programme](#)[Our business areas](#)[Graduates](#)[Life as a graduate](#)[Time, trust & freedom](#)[Placements & internships](#)[Meet our graduates](#)[Apprenticeships](#)[Degree apprenticeships](#)[What will you do as an apprentice](#)[Meet our apprentices](#)[Roke](#)[Life at Roke](#)[Our benefits](#)[Corporate social responsibility](#)[Stay connected](#)

LIFE AS A GRADUATE

Consulting & Systems Engineering

Business and technically minded graduates could join our Consulting & Systems Engineering teams. They specialise in advisory skills including strategy, business analysis and requirements management, enterprise architecture, operational analysis, systems modelling and systems engineering.

Project, Product & Service Management

At Roke we recognise that delivering projects, programmes, portfolios and services requires diverse skills sets. Our Project, Product & Service Management team are skilled in risk management, project planning, scheduling and management, cost modelling and control, quality assurance, delivery assurance, service design and delivery, market analysis.

[Join the team](#)[What we do](#)[Early careers programme](#)[Our business areas](#)[Graduates](#)[Life as a graduate](#)[Time, trust & freedom](#)[Placements & internships](#)[Meet our graduates](#)[Apprenticeships](#)[Degree apprenticeships](#)[What will you do as an apprentice](#)[Meet our apprentices](#)[Roke](#)[Life at Roke](#)[Our benefits](#)[Corporate social responsibility](#)[Stay connected](#)

TIME, TRUST & FREEDOM

A personalised and agile Graduate Development Programme

Whether you're a recent or soon-to-be graduate, Roke will support you through the next stages of your career.

You'll learn a breadth of new skills on our two-year Graduate Development Programme (GDP) and gain valuable experience to help you achieve your career aspirations. From the start, you'll be supporting customer projects or keeping ahead of the curve by creating something entirely new during Roke Innovation Time. By focusing on mobility across the business, you can explore where your long-term professional interests may lie, allowing you to build a depth of knowledge and experience in your chosen area.

We'll also help you achieve your goals by providing a programme leader and an individual mentor as part of our graduate assurance process.

- **TECHNICAL TRAINING** – a combination of online, in-house and external training opportunities
- **ACCREDITATIONS** – opportunities to pursue a variety of professional accreditations
- **SOFT SKILLS TRAINING** – alongside technical training, we'll help you to develop your soft skills, such as presenting, so you can maximise your potential within the business
- **NETWORKING** – regular networking events with other GDPs
- **CONFERENCES** – attend leading industry conferences and other events

[Join the team](#)[What we do](#)[Early careers programme](#)[Our business areas](#)[Graduates](#)[Life as a graduate](#)[Time, trust & freedom](#)[Placements & internships](#)[Meet our graduates](#)[Apprenticeships](#)[Degree apprenticeships](#)[What will you do as an apprentice](#)[Meet our apprentices](#)[Roke](#)[Life at Roke](#)[Our benefits](#)[Corporate social responsibility](#)[Stay connected](#)

PLACEMENTS & INTERNSHIPS

Join us as an undergraduate on a summer vacation or industrial placement.

You'll typically be with us for eight weeks in July and August (summer) for six months to a year from September (industrial) and will be paid a competitive monthly salary. In your summer vacation work, you'll be a contributing member of a project team, gaining access to unrivalled opportunities to learn and develop new skills within the varied and groundbreaking engineering work taking place at Roke.

If you're selected to join us on a placement scheme, we're sure you'll find it engaging and rewarding for both yourself and your career.

What do we expect from you?

You'll have achieved well above average performance in your A-level examinations and demonstrate the ability to achieve a 2:1 or equivalent in your degree course (Computer Science, Physics, Mathematics or a business related degree – any year of study).

You should also have some practical experience of software and/or be able to demonstrate an analytical approach to problem solving, so that during your placement you can get into the thick of it under the supervision of an engineer.

[Join the team](#)[What we do](#)[Early careers programme](#)[Our business areas](#)[Graduates](#)[Life as a graduate](#)[Time, trust & freedom](#)[Placements & internships](#)[Meet our graduates](#)[Apprenticeships](#)[Degree apprenticeships](#)[What will you do as an apprentice](#)[Meet our apprentices](#)[Roke](#)[Life at Roke](#)[Our benefits](#)[Corporate social responsibility](#)[Stay connected](#)

MEET OUR GRADUATES - RIYA

I'm a Graduate Consultant in the Roke Consulting area and joined the Graduate Development Programme 10 months ago. Currently, I'm in London on a client site, working on strategy development and implementation across the law enforcement community.

WHAT ATTRACTED YOU TO ROKE?

Roke is a medium-sized company. This led me to believe that I wouldn't be lost in the masses. My experience here has been an enjoyable and personal one. I have made close relationships with the people I work with and for, and I get the attention and support I need as a graduate entering full-time employment for the first time.

WHY DO YOU ENJOY YOUR JOB?

Working in the National Security space means that things are current and always changing. As a result of this, I'm never bored, and have numerous opportunities to learn and develop. Day-to-day work is never the same, which feeds my interest and keeps me on my toes.

HAS YOUR ROLE BEEN SUPPORTED BY TRAINING?

I've received ample training at Roke. On top of graduate training on my general skills, I've also received technical training specific to my role.

Roke has supported my development by providing me with training to achieve a Diploma in Business Analysis.

HAS JOINING ROKE INFLUENCED YOUR CAREER PATH?

Massively. Before joining Roke I was still unsure about what area I wanted to work in long-term. However, since joining, I've come to find that working in the National Security space is something I want to continue doing.

WHY WOULD YOU RECOMMEND ROKE TO OTHER GRADS?

Roke provides you with a tailored and personal experience towards your development. The support you receive is outstanding, from your line manager, project manager or colleagues, and the GDP provides you with an opportunity to learn fast and get involved.

WHAT'S LIFE LIKE IN ROKE'S CONSULTING SERVICES?

Roke Consulting provide everyone involved with a social, supportive and knowledgeable network of colleagues to learn and bounce off. It's a positive and inclusive environment which made me feel extremely welcome on my first day. Everyone is friendly, willing to help and always available to answer any questions.

[Join the team](#)[What we do](#)[Early careers programme](#)[Our business areas](#)[Graduates](#)[Life as a graduate](#)[Time, trust & freedom](#)[Placements & internships](#)[Meet our graduates](#)[Apprenticeships](#)[Degree apprenticeships](#)[What will you do as an apprentice](#)[Meet our apprentices](#)[Roke](#)[Life at Roke](#)[Our benefits](#)[Corporate social responsibility](#)[Stay connected](#)

MEET OUR GRADUATES - MAX

I work on a project within the Digital Policing area in the National Security department.

WHAT ATTRACTED YOU TO ROKE?

Roke has a reputation for excellent research and innovation within our industry. I saw Roke as an opportunity to learn how to explore an idea from concept, through to execution and customer delivery. As well as this, the broad range of specialists working at Roke seemed like a great chance to build on knowledge I'd built up at university.

WHY DO YOU ENJOY YOUR JOB?

Because if there's something I don't quite understand, there are numerous people who patiently support you, running through concepts or a technique.

HAS YOUR ROLE BEEN SUPPORTED BY TRAINING?

Yes, by opening up opportunities to take professional certifications. I am given time to improve aspects of my job with dedicated training time throughout the year.

HAS JOINING ROKE INFLUENCED YOUR CAREER PATH?

I've gained insight into the world of software development and how a project is run, from commercial to technical delivery. Having this kind of overview in Cyber Security as an industry is invaluable.

WHY WOULD YOU RECOMMEND ROKE TO OTHER GRADS?

It's an excellent opportunity to advance your skillsets all while working on projects that you can firmly say, make a positive difference.

APPRENTICES

Unlock your potential

[Join the team](#)[What we do](#)[Early careers programme](#)[Our business areas](#)[Graduates](#)[Life as a graduate](#)[Time, trust & freedom](#)[Placements & internships](#)[Meet our graduates](#)[Apprenticeships](#)[Degree apprenticeships](#)[What will you do as an apprentice](#)[Meet our apprentices](#)[Roke](#)[Life at Roke](#)[Our benefits](#)[Corporate social responsibility](#)[Stay connected](#)

DEGREE APPRENTICESHIPS

What is a degree apprenticeship?

A degree apprenticeship gives you the perfect opportunity to earn, learn and grow. You'll have the opportunity to gain a level 6 qualification (equivalent to BA or BSc Honours degree) all whilst being employed and receiving relevant experience. The biggest benefit to all of this is that your degree is fully funded through the apprenticeship levy.

Our partnership with the University of Winchester means you will study one day a week on campus towards your relevant degree alongside your work at Roke.

What will your degree entail?

If you're joining us you'll study for a BSc Honours degree in Digital and Technology Solutions. This will cover modules such as software programming, cyber security, network security and project management and business analyst. The modules include all the core fundamental practical skills you'll need to flourish. What's more, towards the end of the degree you'll get to tailor your modules towards a future role at Roke.

As well as a thorough grounding in digital and technology solutions, you'll learn a wide range of skills in business process analysis, solutions development and data management.

Once you've finished the apprenticeship and have your degree, you'll be invited to join our graduate programme.

[Join the team](#)[What we do](#)[Early careers programme](#)[Our business areas](#)[Graduates](#)[Life as a graduate](#)[Time, trust & freedom](#)[Placements & internships](#)[Meet our graduates](#)[Apprenticeships](#)[Degree apprenticeships](#)[What will you do as an apprentice](#)[Meet our apprentices](#)[Roke](#)[Life at Roke](#)[Our benefits](#)[Corporate social responsibility](#)[Stay connected](#)

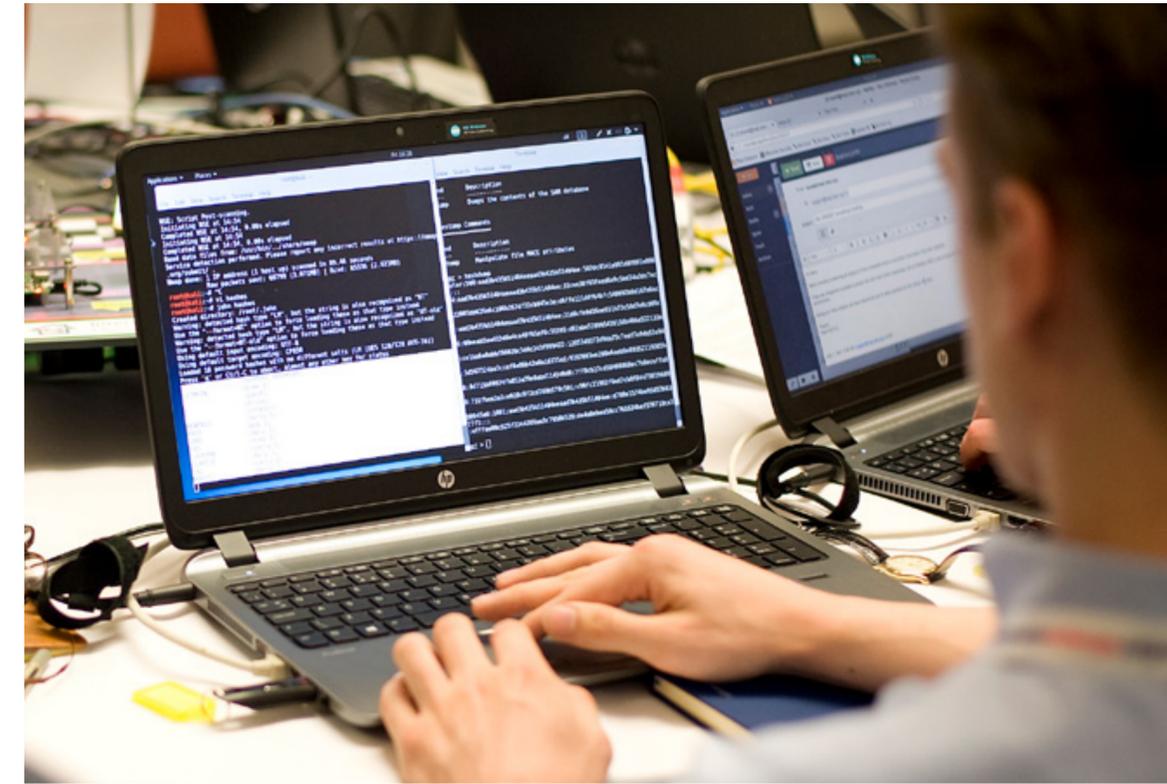

WHAT WILL YOU DO AS AN APPRENTICE

Project Work

At Roke you'll join one of our key areas. Here you'll work on groundbreaking projects for our wide range of clients, helping to make a real impact to the world we live in. You'll have the chance to learn and work within dynamic teams, all whilst being supported by a workplace mentor and line manager.

Innovation

When not on project work, you'll have access to our Innovation Hub, where employees post scientific and technological problems that they may have. If something takes your interest, you can collaborate with others, unleash your creativity and evaluate solutions.

Training

During your time here, we'll give you training in technical and business skills either online or through our own engineers and support staff. The training will be tailored to the area of Roke you join. We also support colleagues in gaining various professional accreditations during your time at Roke.

[Join the team](#)[What we do](#)[Early careers programme](#)[Our business areas](#)[Graduates](#)[Life as a graduate](#)[Time, trust & freedom](#)[Placements & internships](#)[Meet our graduates](#)[Apprenticeships](#)[Degree apprenticeships](#)[What will you do as an apprentice](#)[Meet our apprentices](#)[Roke](#)[Life at Roke](#)[Our benefits](#)[Corporate social responsibility](#)[Stay connected](#)

MEET OUR APPRENTICES

JAMES - SOFTWARE ENGINEERING APPRENTICE

“I started my apprenticeship in early September and have not once looked back on my decision. This opportunity has provided me with new found friendships, great on the job experience and a wide variety of knowledge gained from university. I’ve most enjoyed the hands-on experience achieved from different projects within the workplace and would highly recommend this apprenticeship to anyone.”

ALI - BID MANAGER APPRENTICE

“My role as a Bid Manager Apprentice is to provide support to other Bid Managers on large bids and manage my own bids. This role challenges me to take authority and responsibility, ensuring bids are supported, facilitated and processed once they are identified as opportunities by a Client Manager, to the moment the bid is delivered. Being an apprentice at Roke allows me to interact with all employees in the business without hesitation. My colleagues are welcoming and always encourage me to expand my knowledge of the business by exploring new areas in the work we do, which accelerates my drive to complete my apprenticeship successfully.”

ROKE

Improving the world through innovation

[Join the team](#)[What we do](#)[Early careers programme](#)[Our business areas](#)[Graduates](#)[Life as a graduate](#)[Time, trust & freedom](#)[Placements & internships](#)[Meet our graduates](#)[Apprenticeships](#)[Degree apprenticeships](#)[What will you do as an apprentice](#)[Meet our apprentices](#)[Roke](#)[Life at Roke](#)[Our benefits](#)[Corporate social responsibility](#)[Stay connected](#)

LIFE AT ROKE

Work hard, play hard

We invest in your future and drive innovation because it better serves our customers and adds genuine value to our broader society. Changing the world isn't easy and in return for your endeavours, you'll receive great benefits and share in our success.

Day to day

You can enjoy direct access to the Cotswolds in Gloucestershire or stunning views of the Capital from our London office which sits on the river Thames. Set within a 22 acre estate, our Romsey office provides plenty of opportunities to explore countryside walks, an on-site social club with its own bar, tennis courts and gym offering lots of sports classes, encouraging downtime.

[Join the team](#)[What we do](#)[Early careers programme](#)[Our business areas](#)[Graduates](#)[Life as a graduate](#)[Time, trust & freedom](#)[Placements & internships](#)[Meet our graduates](#)[Apprenticeships](#)[Degree apprenticeships](#)[What will you do as an apprentice](#)[Meet our apprentices](#)[Roke](#)[Life at Roke](#)[Our benefits](#)[Corporate social responsibility](#)[Stay connected](#)

LIFE AT ROKE

Opportunities to celebrate

Your work is important and we recognise outstanding achievement too. There are plenty of opportunities to share in collective success with company parties throughout the year and individual awards for excellent performance. You can also give back to the community through our charity activities, volunteering and school partnership programmes.

Our promise

We offer an environment where you can self-manage, continue to hone your craft and where your experience will be valued.

We promise to invest in your future and make sure there are opportunities available for you to get involved in world-changing projects, undertake new qualifications and shape your own career.

[Join the team](#)[What we do](#)[Early careers programme](#)[Our business areas](#)[Graduates](#)[Life as a graduate](#)[Time, trust & freedom](#)[Placements & internships](#)[Meet our graduates](#)[Apprenticeships](#)[Degree apprenticeships](#)[What will you do as an apprentice](#)[Meet our apprentices](#)[Roke](#)[Life at Roke](#)[Our benefits](#)[Corporate social responsibility](#)[Stay connected](#)

LIFE AT ROKE

Diversity

We're all unique. We want to be recognised and known for supporting and valuing our people by being actively inclusive in all that we do and stand for.

We believe this will enable us to have high performing individuals and teams by retaining and attracting talented people, creating a stimulating, collaborative and rewarding working environment.

Diversity provides a powerful catalyst for new ideas, innovations and new ways of thinking, which enable us to respond to the needs of our clients.

[Join the team](#)[What we do](#)[Early careers programme](#)[Our business areas](#)[Graduates](#)[Life as a graduate](#)[Time, trust & freedom](#)[Placements & internships](#)[Meet our graduates](#)[Apprenticeships](#)[Degree apprenticeships](#)[What will you do as an apprentice](#)[Meet our apprentices](#)[Roke](#)[Life at Roke](#)[Our benefits](#)[Corporate social responsibility](#)[Stay connected](#)

OUR BENEFITS

Competitive salary.

£3,000 welcome bonus (grads only) to help you settle into the local area and your new role.

A contributory pension and a number of additional flexible benefits.

A competitive performance related bonus scheme, which we accompany with a clearly defined and fair review process.

25 days' annual leave, which can be supplemented by Roke's flexi-leave scheme to the tune of an additional eight days.

Onsite tennis courts, gym (including showers and changing facilities) and fishing rights on the River Test (*available at Romsey*).

Numerous company events throughout the year, including a summer music festival, bonfire night fireworks and Christmas party.

Employee led social clubs covering numerous sports, cyber/data/robotics activities, gaming, board games and more.

[Join the team](#)[What we do](#)[Early careers programme](#)[Our business areas](#)[Graduates](#)[Life as a graduate](#)[Time, trust & freedom](#)[Placements & internships](#)[Meet our graduates](#)[Apprenticeships](#)[Degree apprenticeships](#)[What will you do as an apprentice](#)[Meet our apprentices](#)[Roke](#)[Life at Roke](#)[Our benefits](#)[Corporate social responsibility](#)[Stay connected](#)

CORPORATE SOCIAL RESPONSIBILITY

Being recognised as a good “corporate citizen” is a key focus for Roke.

Our goal is simple: to help make our community a better place. This means leveraging our know-how, financial resources and the commitment and enthusiasm of our employees to improve and support the communities in which we live and work.

Our activities are diverse. They extend from supporting a host of charity and fundraising initiatives, to working closely with local schools and colleges in a range of educational projects to inspire more young people to take an active interest in science and engineering.

We believe that careers in STEM subjects are fundamental in ensuring that the UK continues to compete on the world stage in developing the cutting edge technology of the future.

[Join the team](#)[What we do](#)[Early careers programme](#)[Our business areas](#)[Graduates](#)[Life as a graduate](#)[Time, trust & freedom](#)[Placements & internships](#)[Meet our graduates](#)[Apprenticeships](#)[Degree apprenticeships](#)[What will you do as an apprentice](#)[Meet our apprentices](#)[Roke](#)[Life at Roke](#)[Our benefits](#)[Corporate social responsibility](#)[Stay connected](#)

STAY CONNECTED

We want to make sure you make the right decisions, so our team are on hand to assist or give you more information. Please get in touch if you have any questions.

Follow us on social media to see the latest news and stories from our engineers.
